

SWISS – ROMANIAN Cooperation Programme

Swiss-Europe Contribution

*Energy Efficiency and
Renewable Energy Programme*

CHF 60 million

Overall objective: improve the quality of life for Romania's inhabitants through increasing the energy efficiency and supporting the use of renewable sources of energy in Romanian cities by implementing high quality technological solutions

Implementation period: 2025 - 2029

PROGRAMME OPERATOR

Ministry of Development, Public Works and
Administration

PROGRAMME COMPONENT OPERATORS

- 11 selected cities
- Ministry of investments and European Projects

ROMANIAN PARTNER

- Association of Regional
Development Agencies (ROREG)

SPECIFIC OBJECTIVE OF THE SECOND SWISS CONTRIBUTION:

PROTECTING THE ENVIRONMENT
AND THE CLIMATE

THEMATIC AREA

Energy Efficiency and Renewable Energy

TOTAL BUDGET

CHF 69 M, with 60 M Swiss funds and
9 M Romanian co-financing

SWISS PARTNERS

-Minergie
-Biomasse Suisse

The National Coordination Unit (Romanian Ministry of Finance) ensures the overall coordination of the 11 Programmes financed by the second Swiss Contribution to Romania

The Swiss Contribution Office, integrated to the Embassy of Switzerland in Romania, ensures smooth communication between the actors in the two countries and supports both programming and implementation of the 11 programmes

The Swiss State Secretariat for Economic Affairs is financing the Energy Efficiency and Renewable Energy Programme in Romania

How does the Energy Efficiency and Renewable Energy Programme work?

1

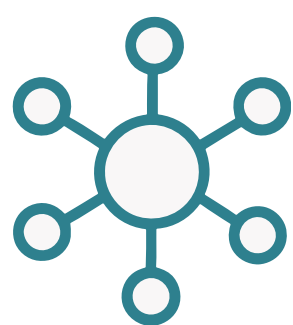

Following a selection procedure organised by the Ministry of Development, Public Works and Administration, 11 localities will benefit from Swiss financing to improve their energetic performance: municipalities of Brasov, Baia Mare, Alba Iulia, Targoviste, Piatra Neamt, Satu Mare, Sibiu, Campia, Oltenita, Barlad and the city of Buhusi.

This Programme also focuses on the creation of the Romanian European Energy Award (EEA), under the responsibility of the Ministry of Investments and European Funds, in partnership with the Association of Regional Development Agencies (ROREG). The European Energy Award supports local governments in establishing interdisciplinary planning approaches and implementing effective energy and climate policy measures through the rational use of energy and increased use of renewable energies.

2

3

In order to increase the capacity of selected cities in the field of energy efficiency and renewable energy, those will be supported by Swiss partners, in order to transfer experience and information.
