

Exhibition of photographs and drawings:

ON THE ROAD WITH NICOLAS BOUVIER AND THIERRY VERNET

Cultural Station Svilara 14 – 21.10.2019

Opening: 14 October at 19:00

After Belgrade and Nis, an exhibition of photographs of the famous Swiss travel writer Nicolas Bouvier and drawings of his companion Thierry Vernet arrives in Novi Sad!

Nicolas Bouvier (1929-1998) is a Swiss travel writer, photographer, and illustrator. His book "The Way of the World", a masterpiece among travel writers, in which he keeps indelible memories from the Balkans, including those from Belgrade, continues to inspire many travelers and writers even today.

At the end of July 1953, Nicolas Bouvier left Geneva at the wheel of his old Fiat Topolino with a typewriter. He heads to Belgrade where he should join his friend Thierry Vernet. After that, the two will move on to Macedonia, Greece, Turkey, Iran, and Afghanistan. From this adventure will come "The Way of the World," a reference book for all future travel books.

As part of the exhibition a presentation of the book "The Way of the World" will be organized and if you visit the opening you can win one copy of the book!

The exhibition was prepared by the Embassy of Switzerland in Belgrade, in cooperation with the French Institute in Serbia, and will be hosted in Novi Sad thanks to the Novi Sad 2021 Foundation and the Cultural Station Svilara.
