

We, the youth, are willing to take responsibility for a peaceful future.

We are committed to:

Listen

Deliver concrete **climate action**

Mobilize towards the cause of peace by organizing and attending events

Exchange

Promote the participation of **youth in politics**

Sensitize and raise awareness on **social media**

Learn from each other

We want to be **open-minded and well informed citizens** for the future. We want to root pro-democratic values in the lives and minds of young citizens

Strengthen voices

Set the agenda: discuss pressing issues (school, public transportation, climate change). Mobilise politicians to support our solutions

Seek the dialogue
